The MIRANDA project has started!

MIRANDA - Roma Inclusion Through Vocational Education

The MIRANDA Roma is an innovative 3-year Erasmus+ project aiming to promote social inclusion through vocational training and improve the outreach to people with fewer opportunities. Main goals of the project are to identify key stakeholders, organize events and surveys, and tackle the obstacles these groups face in accessing job market opportunities. Additionally, it aims to help build inclusive environments that foster equality and fairness in education.

The Miranda EU Project seeks to develop an effective framework for Vocational Education and Training (VET) institutions, enabling Roma learners to surmount linguistic, social, and economic barriers. The ultimate objective is to create more inclusive educational settings and close the employment gap affecting the Roma communities.

THE MAIN OBJECTIVES OF THE PROJECT

The main objectives of the MIRANDA Roma project are the following:

- to enhance Roma education and bridge social gaps.
- to enhance the services of the VET Schools for Roma and other excluded groups
- increase the attractiveness of VET Schools in the Roma community
- reduce the employment gap for Roma
- reduce the gap in completion of upper secondary and vocational education for the Roma adults
- increase public awareness of issues of discrimination suffered by the Roma communities
- inform the employers and stakeholders about the employment prospects of the Roma population.

Co-funded by
the European Union
